Jacklyn is put through the ringer throughout the video. After double crossing her partner by poisoning him, Curt is brought back to life by the Executioner in order to get his revenge. He attacks her and chloroforms her into unconsciousness. She then finds herself bound and gagged in a chair where Curt strangles her to unconsciousness. After he leaves, she manages to free herself and tries to escape, only to have Curt catch her at the front door and knocks her unconscious. Jacklyn wakes up tied to a chair in the garage with wires taped to her legs. Curt turns the power on, sending an electric shock throughout her whole body. She spasms in pain until he finally shuts the switch off.

His final ordeal for her is to be poisoned like he was, but in a lesser amount, so it will take a long time before she dies. Her mouth foams and she struggles against the painful poison until she finally succumbs and dies. Curt has gotten his revenge!

But "The Executioner" brings Carla back to life to exact her revenge against Sally, but not before Carla has some "fun" with her ex-friend! (catfights, stabbing, strangling, full nudity) (24 min.)
